

Coast Guardsman's Drowning Probe Still Incomplete

An investigation into the drowning Sunday of a coast guardsman is expected to be completed by the end of this week, according to a coast guard official.

Seaman Charles R. Riddle, 22, of Pensacola, N. C., attached to the cutter Winnebago, was found in the water alongside the cutter at Pier 4. The discovery was made about 4 a.m.

Officials are relatively certain of circumstances surrounding the accident, but will not release information until the board of inquiry has completed its investigation.
